

第3回 国際LSD Webカンファレンス 神経セロイドリポフスチン症:最近の進捗

The 3rd International Lysosomal Disease
Web Conference
Recent Updates on Neuronal Ceroid Lipofuscinosis
Wednesday 3 February 2021 19:00–20:30 JST

2021年2月3日(水) 19:00–20:30(日本時間)

About this event

Neuronal ceroid lipofuscinosis (CLN) is a group of rare neurodegenerative lysosomal storage diseases (LSD) in which lipopigments accumulate in the nerve cells. CLN manifests in young children and is marked by symptoms including vision loss and various indicators of neurological decline. At the upcoming 2021 International Lysosomal Disease Web Conference on 3 February 2021, a prestigious faculty from Japan and Germany will discuss the latest clinical and research findings on CLN and its treatment.

Agenda

19:00	Opening remarks	Professor Yoshikatsu Eto
19:05	Session 1: A Japanese case report of ceroid lipofuscinosis type 2 (CLN2) treated by intracerebroventricular enzyme replacement therapy	Dr Yu Kobayashi
19:20	Q&A	All participants
19:25	Session 2: Lysosomal Storage Disorders Mainly Affecting Brain and Retina: The Neuronal Ceroid Lipofuscinoses	Professor Alfred Kohlschütter
20:10	Q&A	All participants
20:25	Closing remarks	Professor Yoshikatsu Eto

Our faculty

Meeting Chair

Professor Yoshikatsu Eto, MD, PhD

Advanced Clinical Research Center, Southern Tohoku Institute for Neuroscience/Jikei University School of Medicine

Professor Yoshikatsu Eto is a Director at the Institute of Neurological Diseases, Advanced Clinical Research Center & Institute of the Treatment of Genetic Diseases (Kanagawa, Japan) and a Professor Emeritus at the Department of Pediatrics, Tokyo Jikei University School of Medicine. He is on the editorial board of *Current Molecular Therapy* and *Molecular Genetics and Metabolism*.

Speakers

Dr Yu Kobayashi, MD

Department of Child Neurology, NHO Nishiniigata Chuo Hospital

Dr Yu Kobayashi is a Medical Doctor at the Department of Child Neurology in NHO Nishiniigata Chuo Hospital and has held this position since 2008. She was formally affiliated with the Department of Pediatrics at Niigata University. She earned her MD degree in 2001 from the School of Medicine at University of Tsukuba.

Professor Alfred Kohlschütter, MD, PhD

Department of Pediatrics, University Medical Center Eppendorf

Professor Alfred Kohlschütter is a Research Advisor at the Department of Paediatrics in Universitätsklinikum Hamburg-Eppendorf. He completed his PhD at Max Planck Institute of Immunobiology. Dr Kohlschütter is a Professor Emeritus at the Department of Paediatrics in Universität Hamburg Medizinische Fakultät, and a Senior Physician at the Clinic for Degenerative Brain Diseases. He is former Head of the Laboratory for Metabolic Diseases at Universitätsklinikum Hamburg-Eppendorf. He is on the editorial board of *Orphanet Journal of Rare Diseases* and *Journal of Child Neurology*.
